Dedication

Mrs. Alice McClure

For her constant endeavor for quality and her ready willingness to steer others toward it, we the Annual Staff of 1966, wish to dedicate this book to Mrs. Alice McClure, head librarian at Red Bluff Union High School.

Mrs. McClure has seen many Golden Horizons through the eyes of a dedicated servant of our school. She has given of herself generously in the past as advisor for the California Scholarship Federation and as a true Spartan patriot. Her friendship and service will ever be remembered by the students of Red Bluff High.

In Memoriam

Dr. William Gaines
May 28, 1924-July 7, 1965

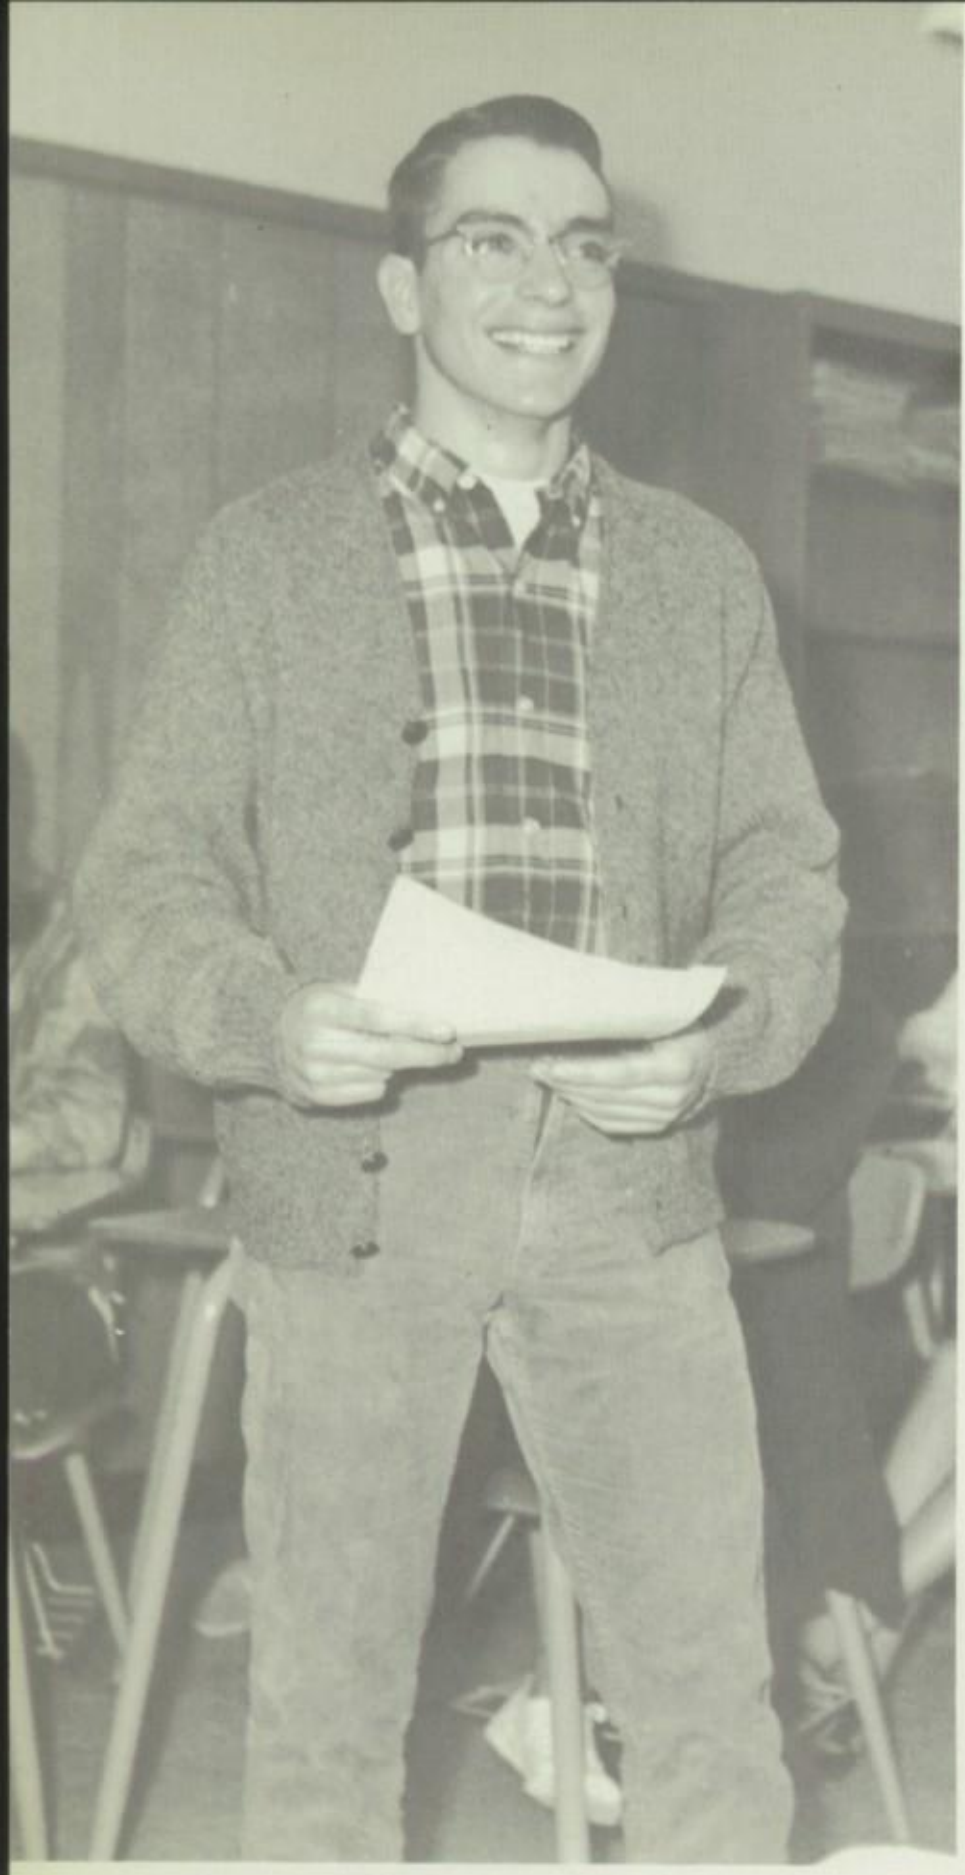
Mr. Francis Bayles
August 3, 1937-August 8, 1965

"The life given us by nature is short; but the memory of a well-spent life is eternal."

Cicero

As a result of a fatal airplane crash on July 7, 1965, the life of one of Red Bluff's prominent doctors was taken. Dr. Gaines was respected and admired for his ability to lead and participate willingly in the activities of his community. Not only was he an excellent physician, but he served as a member of the high school board of trustees.

Mr. Francis Bayles was the victim of an airplane crash on August 8, 1965. He was an active member of our community, serving not only our city, as a respected businessman, but our high school, as an enthusiastic and interested photographer. Mr. Bayles received many awards at state and local fairs for his superb photographing ability.



Presidential Address

The 1965-66 year could be classified as a "beginning". The increased spirit and enthusiasm displayed by all was prompted by the "newness" of our school. Once again we were united, enjoying the new facilities and reaping the benefits of a normal school day.

This spirit was manifest in both our academic and extra-curricular activities. The Spartan strive for excellence was displayed by the accomplishments of the students, the clubs, and the athletic teams. We will always remember the many fun-filled activities. Helge Norrung, our foreign-exchange student from Denmark, was an enjoyable and enlightening addition to R.B.U.H.S.

> "If Athens shall appear great to you, consider then that her glories were purchased by valient men, and by men who learned their duty."
>
> ---Pericles

This school is "great" because of its fine and dedicated teachers and administrative leaders. In general, the attitudes and enthusiasm of the students contribute to the overall excellence.

I am certain that every R.B.U.H.S. student of the future will make an effort to measure up to the traditions of the past and the expectations of the future.

As for my fellow Seniors, this year marks the "end" of four years of good association. In this short time we have developed mentally and physically. We have made many friends. The good times we have enjoyed and the trying times we have come through have helped to mold our characters.

Good luck in the future to each of you.

Sincerely,

Lon Sibert

Foreign Exchange Student Address

Thank you for this past year. It has been wonderful to share a year with all of you and to attend this fine, new school and all its activities. I have enjoyed a lot of new experiences such as football, snow-skiing, sailing, tennis, mountain-climbing, and swimming pool parties. Everybody has been friendly and eager to make this year happy for me.

California has a beautiful countryside. The country is different and wonderful to me. If you went to Denmark the landscape would be different and wonderful to you. Let us try to look at our own land and say, "The world is wonderful."

Thanks to A.F.S. I have met people from all over the world. I have made close friends with students from the U.S.A., Indonesia, New Zealand, Ethiopia, South Africa, Spain, Germany, Finland, Ecuador, and many more. The spirit in this international friendship is great. Unavoidably you say to yourself, "Wars cannot exist in this unity. National borders are unnatural. This is like one big family and we will share our world hereafter." When everybody on earth feels this unity and understanding all fear among humans will be gone and wars will seem ridiculous.

The exchange program is only one way of creating understanding among people. Just think of radio, T.V., the rapid transport systems, and organizations such as the United Nations and the Peace Corps. Our generation will see results of this new and fast-developing movement. We must realize that we are inhabitants, not only of a single country or of a single continent, but of the whole planet. The next step is the universe.

Administration

Walt,
You are a
real good guy
Who I think a lot of
Be good & have fun
this Summer! God Bless
Luck Dianne

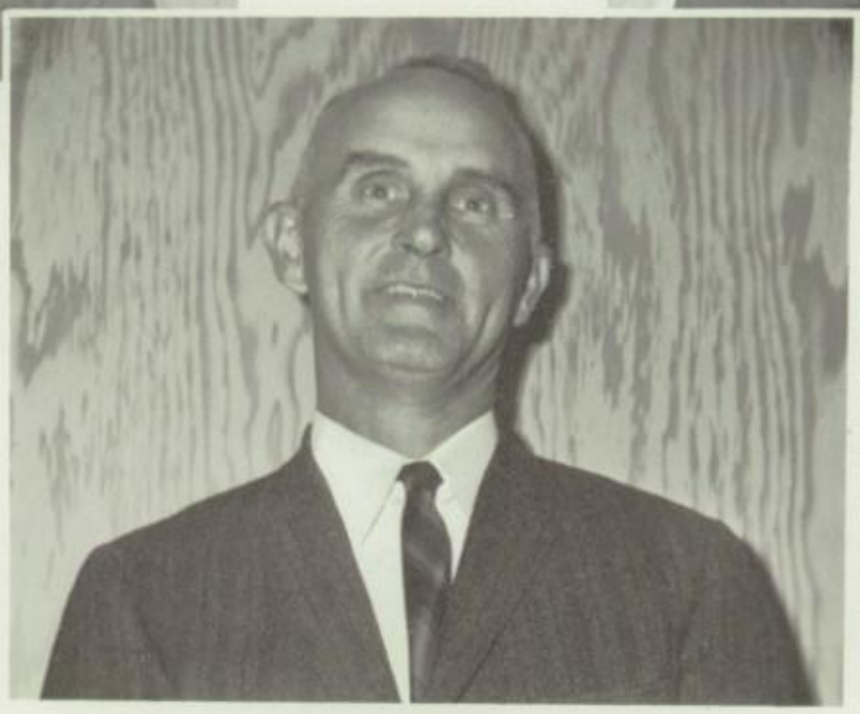
We as students in a free nation have the privilege to reach out and achieve our desired goals. One day each one of us will be on our own and it is up to us as individuals to take advantage of the many golden opportunities that are offered to us daily.

During our high school years we may take advantage of one of the greatest opportunities there is - that of the voice of experience from our administration. We are grateful for the concern of those who make our school operate at top efficiency. These people are the ones who have helped us toward the path that will someday lead us to our many Golden Horizons.

Board Of Trustees

Mr. William Metteer
SUPERINTENDENT

Mr. Metteer, our Superintendent, has given impetus to our Golden Horizons. He has devoted much of his time to the planning of the building program and to the supervision of its development. Under his guidance we have grown as individuals, as departments and as a school unit. Our progress achieved through a period of years is materially symbolized in the growth of our buildings.



Mr. Latane Sale
CHAIRMAN

Mr. Clarence Bateson
ASSISTANT SUPERINTENDENT

The story of the board is not one of abrupt change, but one of progress through the years. Every step has been carried out for the benefit of the school. This present board vitalized our building program and promoted a better understanding between the school and the citizens of our community who made our school possible.

FRONT ROW: L-R, Mr. William Bouett, Mr. Latane Sale, Mr. Nelson Butler.
BACK ROW: L-R, Mr. William Sibert, Dr. William Martin.

Principal's Message

With buildings completed our primary interest remains in building a wholesome and enthusiastic attitude in the student body. Goethe once said in words to this effect, "Happy is the man who obtains knowledge and gets understanding." We are earnestly trying to provide these for you in hopes that you will profit in individual development and in scholastic promise.

Search for knowledge and improvement of self requires interest and a desire for personal development by the student. These qualities also require hard work and diligence as they are not just absorbed out of the school atmosphere.

We would hope that the knowledge you obtain and the personal development you achieve will justify the investment that your parents and the community have provided for you.

Vice-Principal's Message

They say that every cloud has a silver lining and this cloud, 'though it may have been dark, has finally shown its silver lining and our "Golden Horizon" has at last appeared upon the school scene with the final completion of the new additions.

It has been great to get back on the regular school schedule again. This has been a welcome change for the students as well as the faculty. Most of our problems have been solved and normalcy is here.

I would like to express my personal thanks to the students for taking the double session years in their stride-their attitudes have been a very great help to all of us.

So now we have one normal year behind us. Let us look forward to many more.

Bus Drivers and Custodians

BUS DRIVERS: BACK ROW-Mrs. Ricki Lyford, Mrs. Ruth Henley, Mrs. Billie Underwood, Mrs. Gladys Nelson, Mrs. Betty Harris, Mrs. Charlotte Nickle, Mrs. Marion Jones, Mrs. Carol Lewis, Mrs. Alice Lehman. FRONT ROW-Mrs. Doris Heitman, Mr. Thad Blanchard, Mrs. Alice Shamblin.

Our bus drivers assume the task of transporting nearly 52% of our students to and from school daily. We extend our gratitude to these people for the fine job they do.

To our custodians goes the task of keeping our campus facilities clean and in working order. This job requires constant attention and can be well-done only by a group of conscientious men and women.

CUSTODIANS: BACK ROW- Mr. Bing Emerson, Mr. Frank Smith, Mr. Kay Montgomery, Mr. Louis Harland, FRONT ROW-Mrs. Rhoda Geijsbeek, Mr. Sam Adams, Mrs. Vera Marler, Mr. George Kaywood.

Kitchen Staff

BACK ROW-Mrs. Vera Hedden, Mrs. Nettie Burlison, Mrs. Edna Cilk, Mrs. Nancy Nickols. FRONT ROW-Mrs. Doris Heitman, Mrs. Freida Little, Mrs. Lillian Cady.

These ladies prepare fine meals for us daily. In the past years of double session we have discovered the hardships of being without them. We welcome them back and hope that they are aware of our gratitude.

Office Staff

Our office staff is made up of secretaries who work in our school office. These women handle all attendance records and financial matters and in so doing aid both students and faculty members. Their daily help and cheerful attitudes can be relied upon by everyone.

Mrs. Joyce Bundy
Mrs. Gladys Wells
Mrs. Ann Estes

Mrs. Elizabeth Patterson
Miss Joan Rishel
Mrs. Jean Shearman

This staff consists of those secretaries who are employed in the administration building. It is through their hard work that all the actions of the Board of Trustees, Mr. Metteer, and Mr. Bateson are recorded and clearly stated. We appreciate these people who help make the ties between the administration and the students stronger and friendlier.

Nurse

Students feel better immediately when they see the happy smile of Miss Susan Wiggett. Miss Wiggett graduated from Red Bluff High, and then went to the University of Oregon where she received her Bachelor of Science Degree in Nursing. Miss Wiggett enjoys her work and this is evident to anyone who talks with her. Her understanding nature and dedication are greatly appreciated by all.

Miss Susan Wiggett

SENIORS

As our Senior year, 1966, comes to an end we remember our times of sadness and joy, regret and hope, fear and confidence, and approach the world of tomorrow with hope in the Golden Horizons of our futures.

In our activities, Homecoming, the Winter Formal, Junior-Senior Night, the Spring Swing, the Senior Ball, and now graduation, we have left a part of ourselves and have taken a small part of Red Bluff High which will remain with us always, as a reminder of our high school years.

MR. ROBERT JEFFRIES

"THANK YOU"

Four years ago, Mr. Robert Jeffries stood on the threshold and welcomed us into a bright new world. Soon, having been guided through our four years of high school by his wisdom, patience, and understanding, we shall leave here for an even brighter world. In parting we do not say to Mr. Jeffries "good-by", but rather "thank you", though those two words seem inadequate to repay him for all he has done for us. Nevertheless, it is in gratitude that we, the Senior class of Nineteen Hundred Sixty-Six, dedicate this Senior section to Mr. Robert Jeffries.

Through his helpfulness and guidance, Mr. Jeffries has led us toward our Golden Horizons.

The Senior Steering Committee, representing a cross-section of the Senior class, functions to organize and unite the class. The committee, our advisors, and the entire class have worked hard to make this a year to remember always. As we leavewe owe a debt of thanks to all those who have helped and supported us during our high school careers.

Homecoming '65 Had For

Homecoming, traditionally a time of returns and reunions, is, to us Seniors, a reminder of our last three Homecomings and of our last three years of high school. It is also a glimpse of tomorrow, when we too will return to the festivities of Homecoming, this time not as students, but as alumni.

Our class, united for a common cause, worked enthusiastically on the car parade float, "The Eve of Destruction". The Homecoming game that evening was against Enterprise. It resulted in a Spartan victory with a score of 8 - 0. The dance, highlighted by the crowning of "Queen Rosie", ended our day of the "Green and Gold".

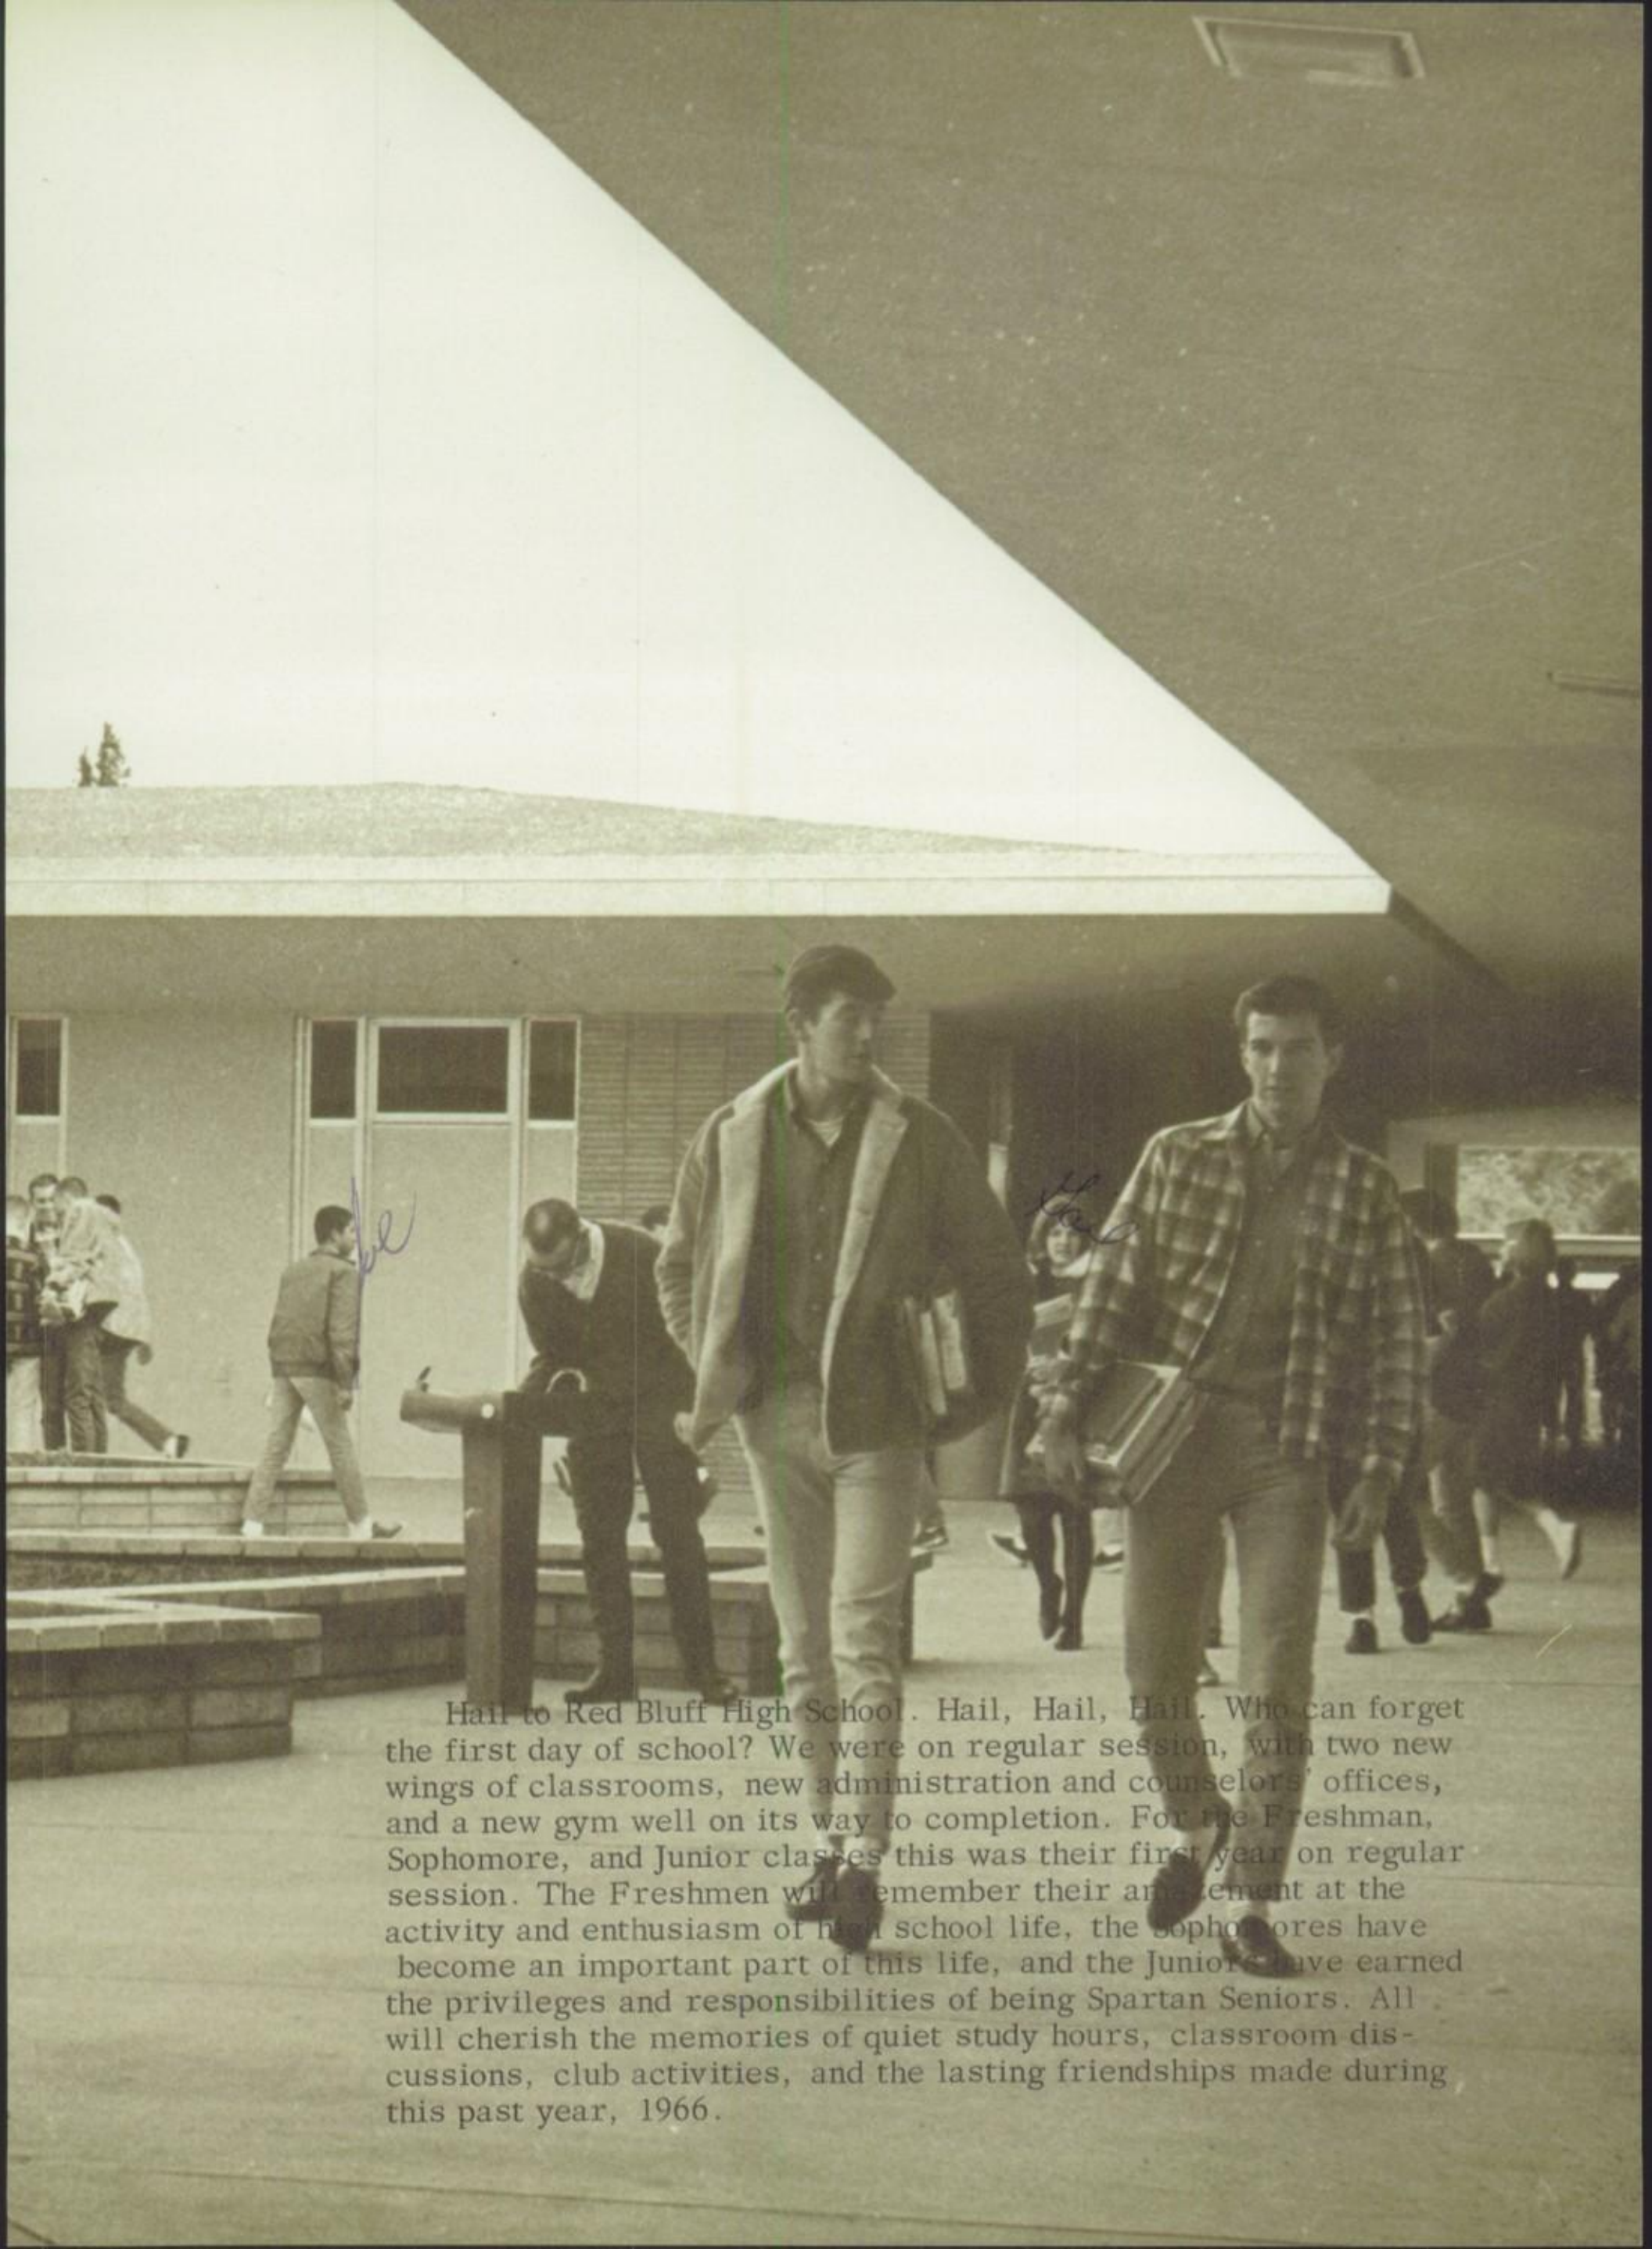
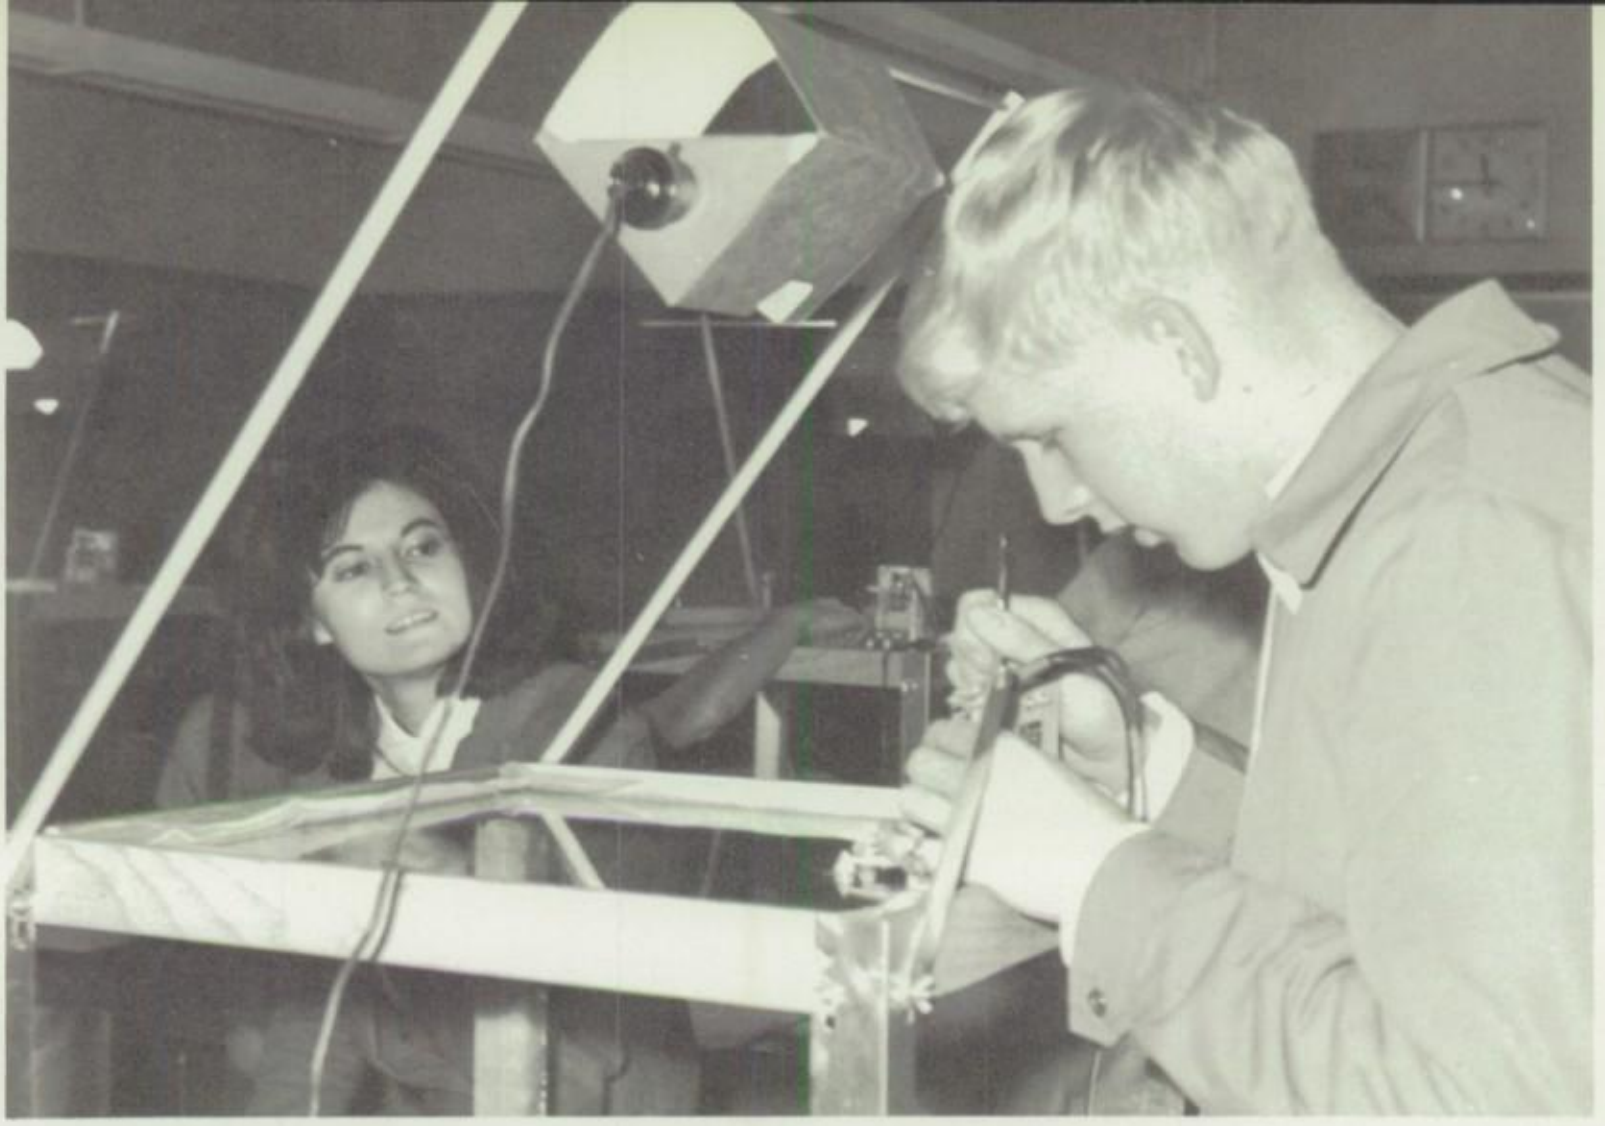
CLASSES



Hail to Red Bluff High School. Hail, Hail, Hail. Who can forget the first day of school? We were on regular session, with two new wings of classrooms, new administration and counselors' offices, and a new gym well on its way to completion. For the Freshman, Sophomore, and Junior classes this was their first year on regular session. The Freshmen will remember their amazement at the activity and enthusiasm of high school life, the Sophomores have become an important part of this life, and the Juniors have earned the privileges and responsibilities of being Spartan Seniors. All will cherish the memories of quiet study hours, classroom discussions, club activities, and the lasting friendships made during this past year, 1966.

A teaching technique new to Red Bluff High this year is adjoining rooms with a movable partition between them. When opened, this provides a larger room for combined class activities and lectures. These are being used in English and Social Studies classes.

Red Bluff High offers Mechanical Drawing I and II, and Architectural Drafting III and IV to its students.



A much needed and welcome addition was the new science rooms, including classrooms and fully equipped laboratory rooms for science exploration and training through experimentation.

When the old main building burned in 1964, all the typing and business classrooms and much of the equipment was destroyed. Homemaking rooms were converted to typing rooms but they were crowded due to double sessions. The new typing and business rooms are a great help to business teachers and students.

We started this year by winning the car parade sweepstakes and by hosting the Homecoming game. We all supported Carmel Growney as our Harvest Ball Queen candidate and came close to winning. Jr.-Sr. Night we played hard and had a lot of fun. Our last event of the year was our Rodeo dance which was a big success. Looking back over this past year we can only have fond and fun-filled memories of this our Junior Year.

This year for us has been so exciting that we will never forget it. We all worked together to support Cyndee Sevedge in the contest for Harvest Ball Queen, and came very close to victory. Our class then made a name for itself by winning the class award for our float in the Homecoming parade. These events brought into full co-operation and we see no limits on the goals our class may achieve in the coming years.

One year down and three to go. This year has gone so fast and has been very exciting. Our first big event of the year was a Welcome Dance sponsored by the sophomore class for us. Later we gave them a Return Dance. Our class made quite a profit when we had the football concession. Working on our Homecoming float sure was a lot of fun. We spent many long hours on it. The F.F.A. Queen contest was held November 19. Cathy Doerr represented our class. You know, we could never have guessed High School would be this much fun. It sure is going to be nice, these next three years.

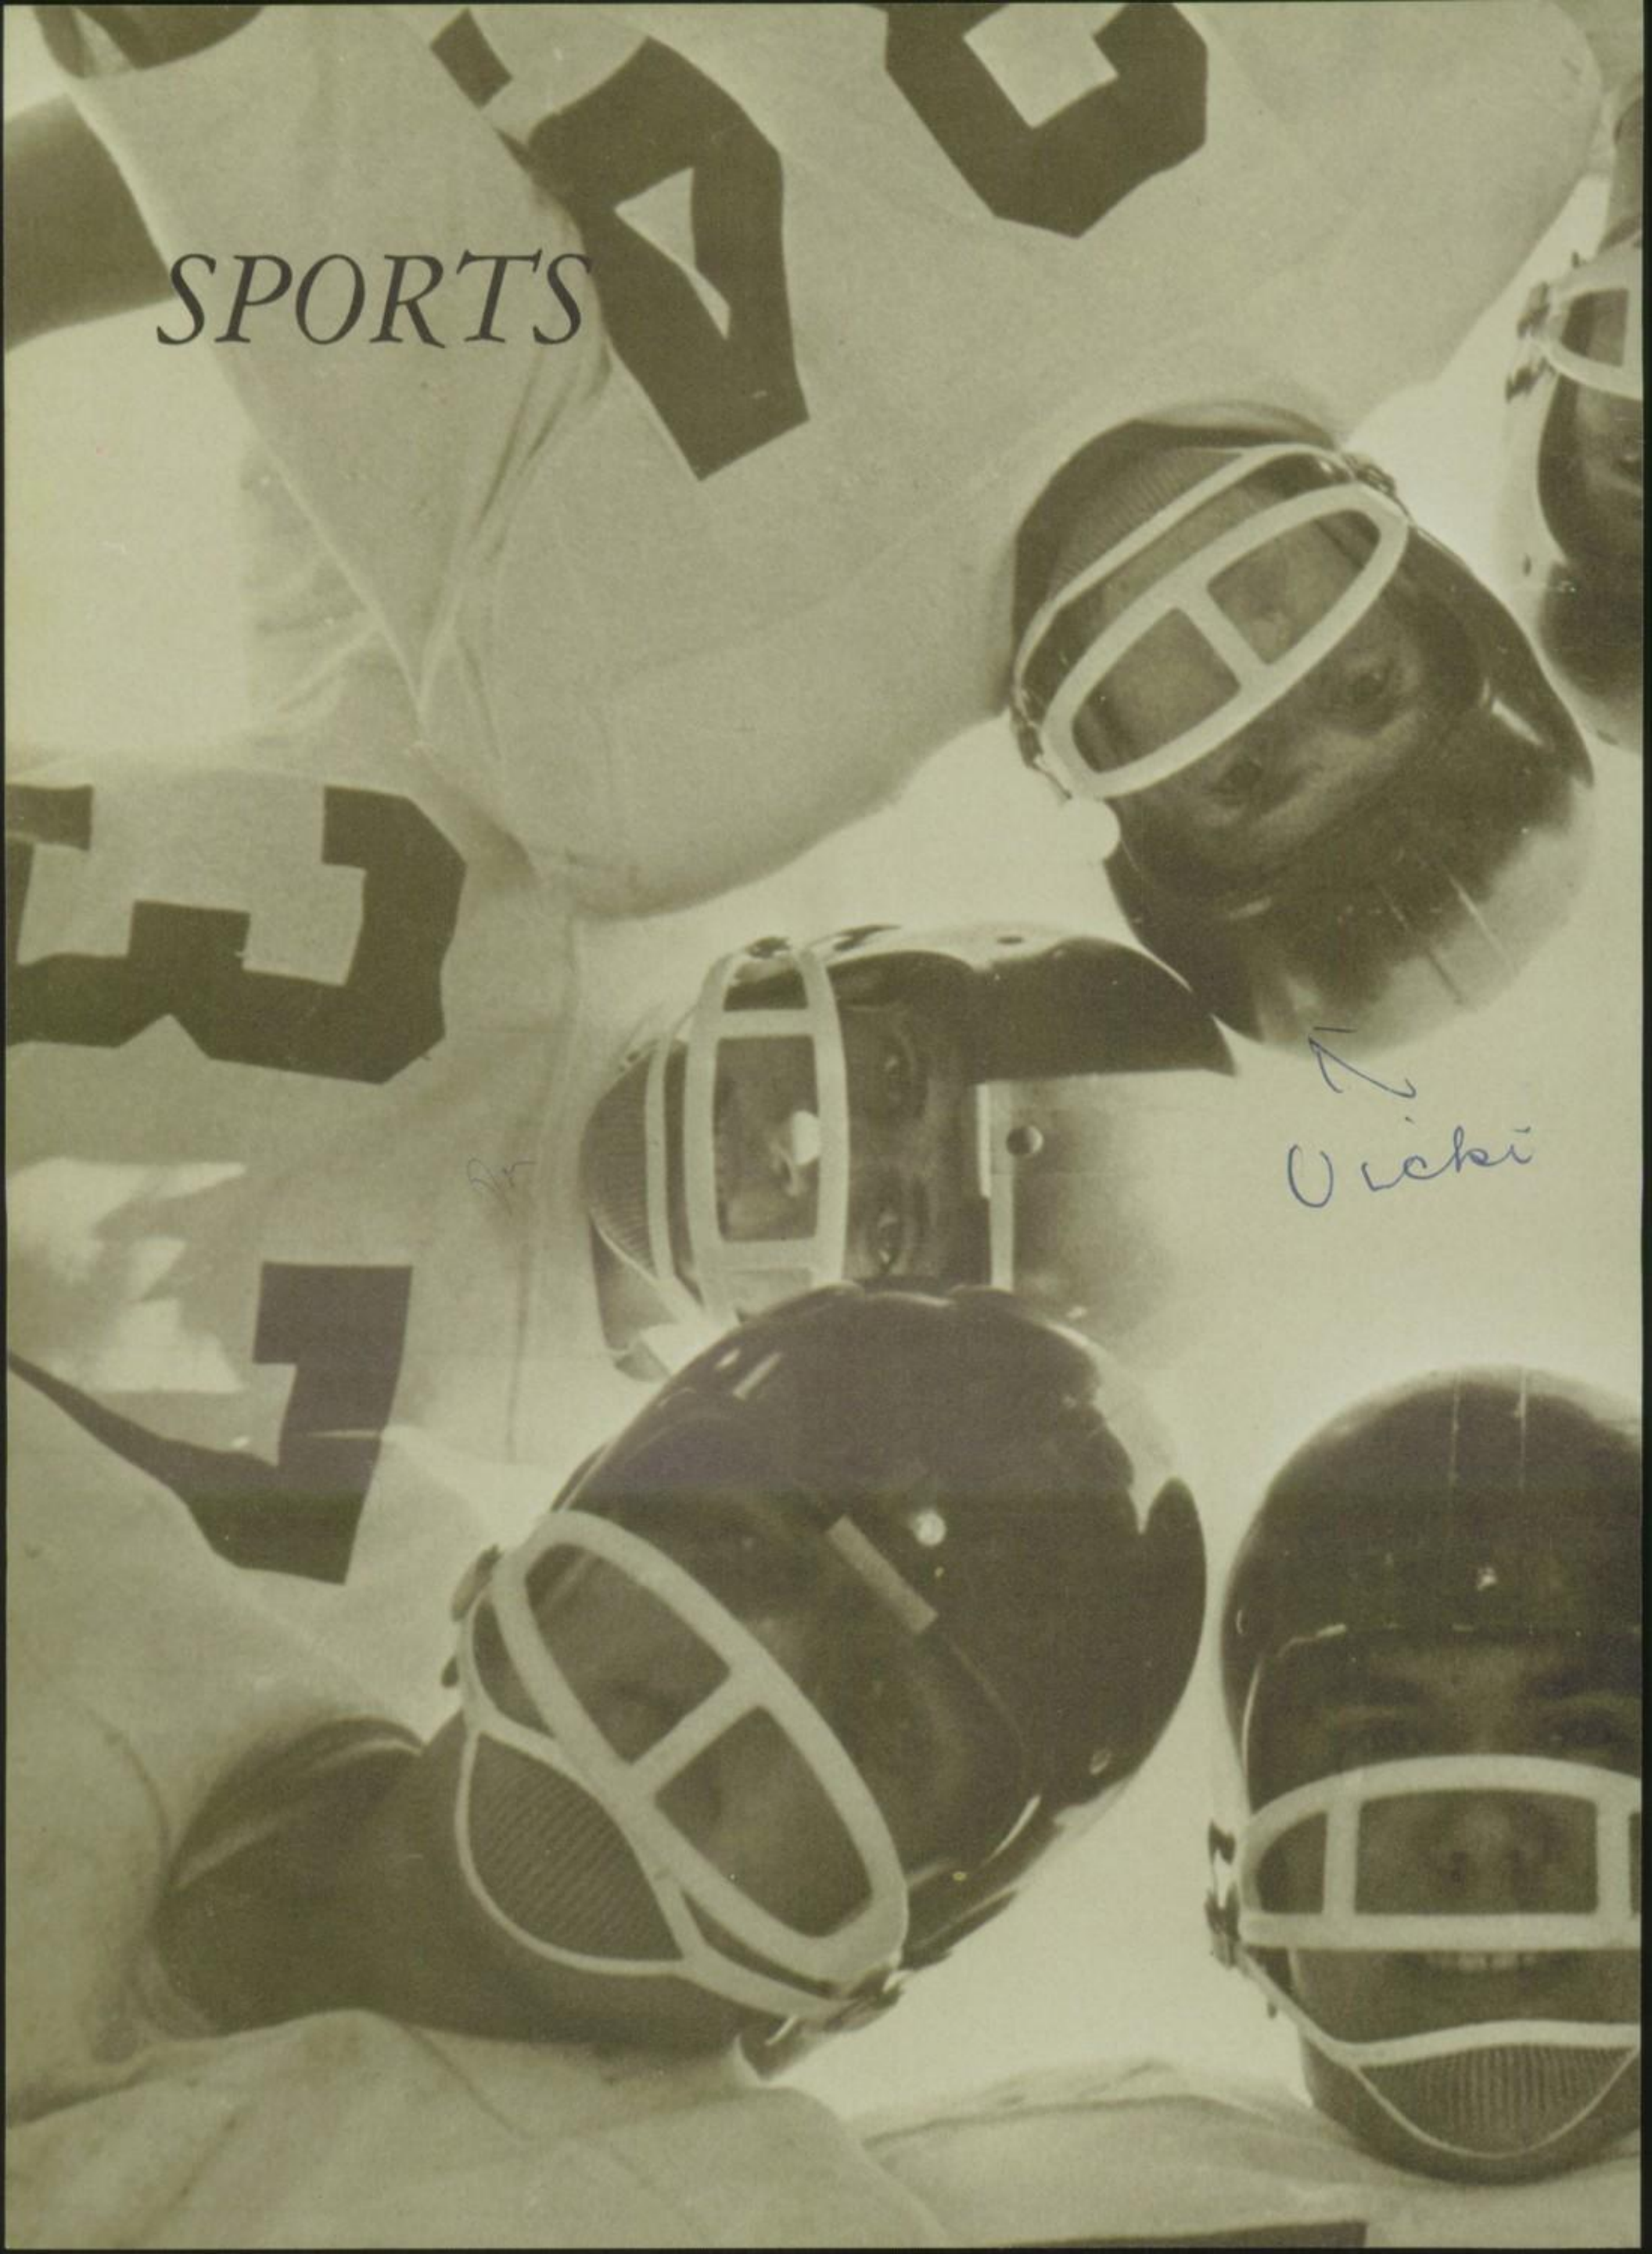
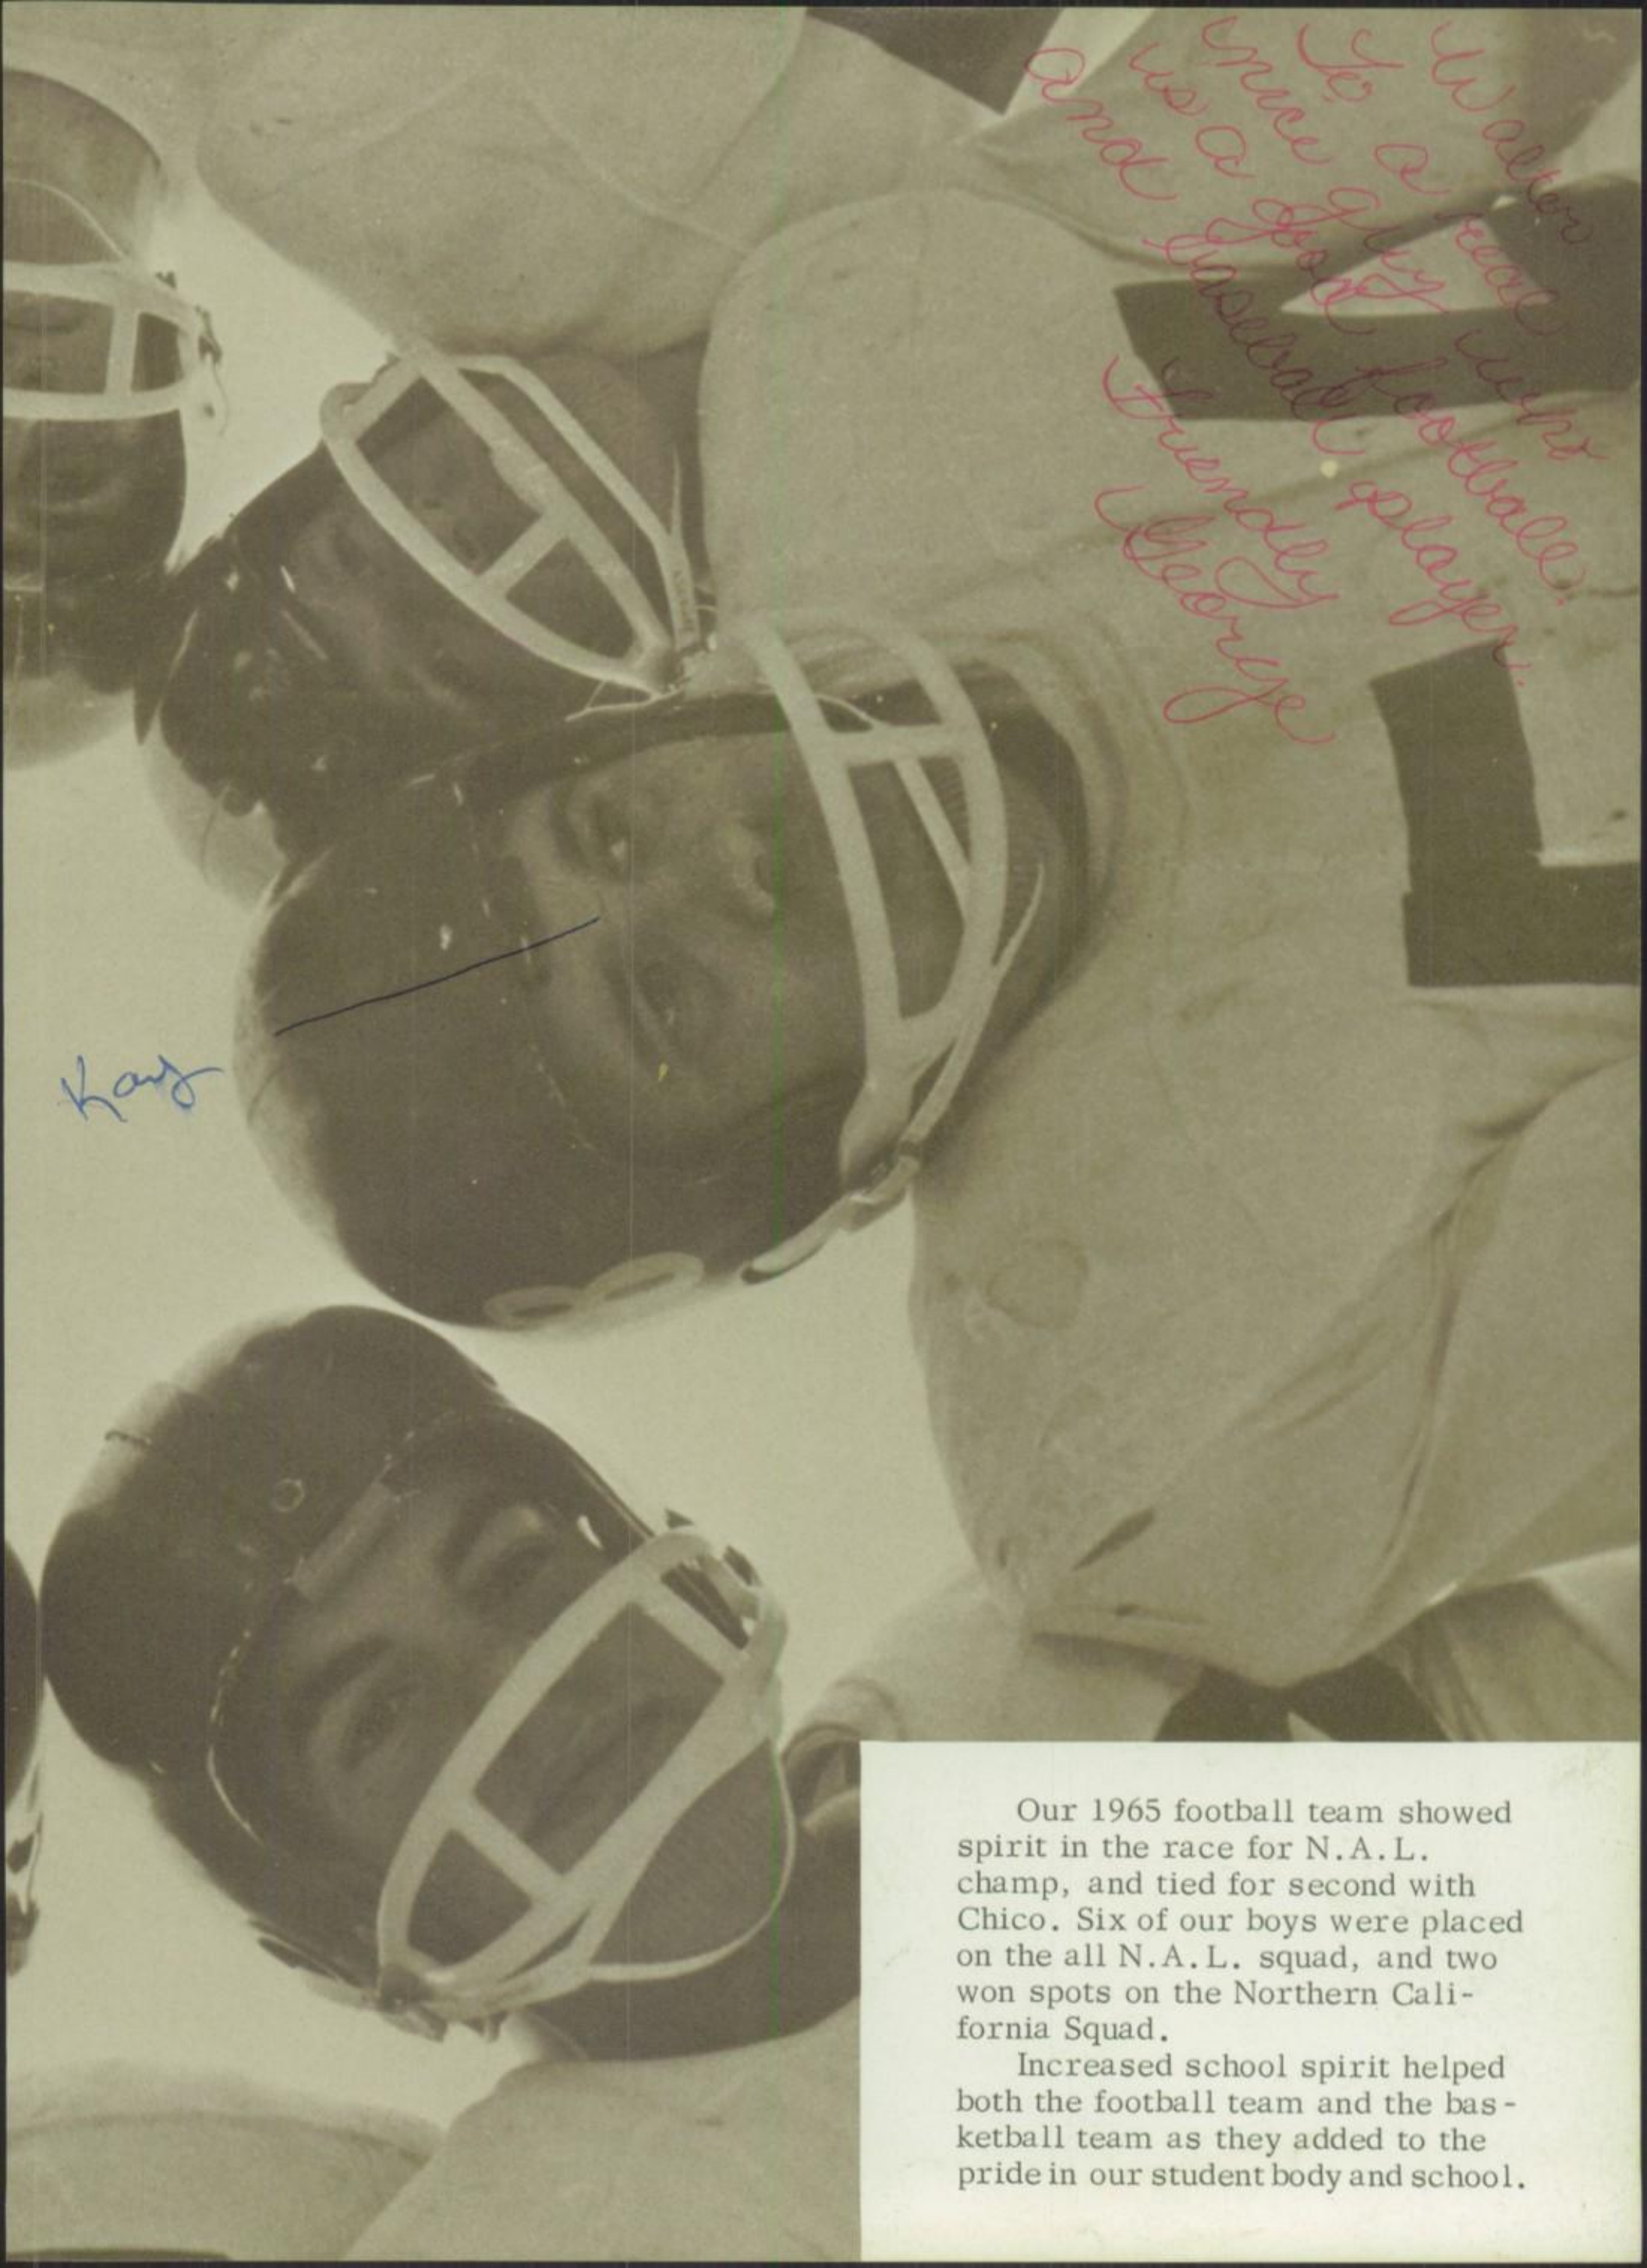
SPORTS





Our 1965 football team showed spirit in the race for N.A.L. champ, and tied for second with Chico. Six of our boys were placed on the all N.A.L. squad, and two won spots on the Northern California Squad.

Increased school spirit helped both the football team and the basketball team as they added to the pride in our student body and school.

Spartan end, Si Glover, catches the ball before being hit by two Reno defenders.

Don Bevins, 46, fakes a punt and rolls around the end.

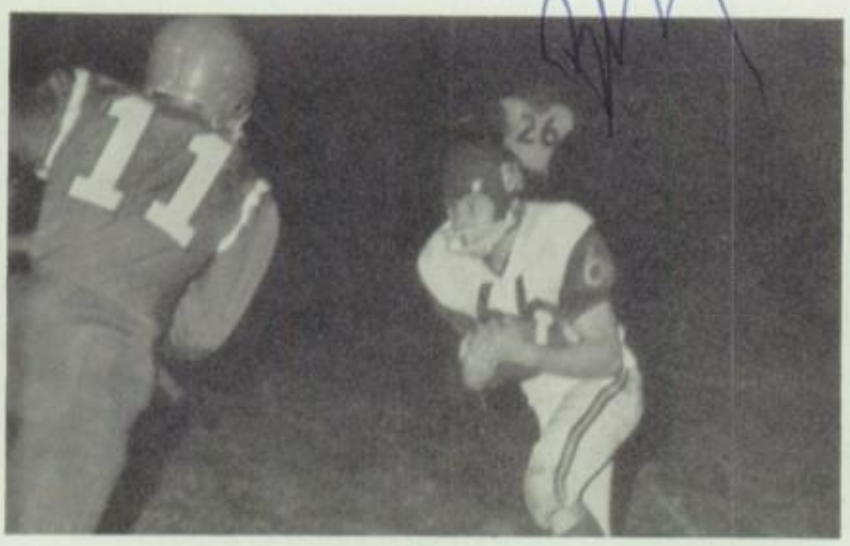
Halfback, Rex Behnke, was one of the big factors on the Spartan offense.

Spartan coaches confer on the previous play.

Spartan defenders pull down a Chico player in a wet, muddy game.

Tim Stoll, team mascot, boosts the morale of the players.

Candids



Paul Lindauer, 66, intercepts a Reno aerial.

Rex Behnke, 44, gives it a "second try" for extra yardage.

Coach Mills

Coach Mills Says:

This year's J.V. Basketball team has shown great improvement. It was considered a poor team the year before due to lack of game experience. However, the team has been impressive this year in rebound strength and in shooting. A good percentage of free shots was maintained throughout the season. Height has been a welcome asset to the team this year, and good ball control and deliberate play has made this an enjoyable and rewarding season.

Coach Waite Says:

Having to practice at 7:00 A.M., this Frosh basketball team showed a great desire for the game. All the members of this team, though they were above average in ability, learned that desire alone will not win games but that you must hustle one hundred per cent to win. There were times when this team was behind by fifteen points and won by four. And there were times when they were ahead by twenty-one points and won only by six. They also have learned what it is to lose.

This group of basketball players were very coachable. The team ended the season with a record of nine wins and 3 losses--a record they can be proud of. All in all, this was an outstanding group of young men to work with. "Remember gentlemen: keep your desire and work for that one hundred per cent effort."

CAMPUS LIFE

As the students arrive each morning, our campus awakens to another GOLDEN HORIZON. Classes meet, and students begin each day by pledging their support to the flag which represents our great nation. By watching the actions of the students of Red Bluff Union High School as they participate in their own government, the student council, one may have confidence in the future when these youths will take part in the governing of a larger body of people--that of American citizens.

Participation in various activities gives opportunity for the developing and maturing of the personalities of the students. It is through this participation in their government as well as in their recreation that our campus "comes alive" to its GOLDEN HORIZONS.

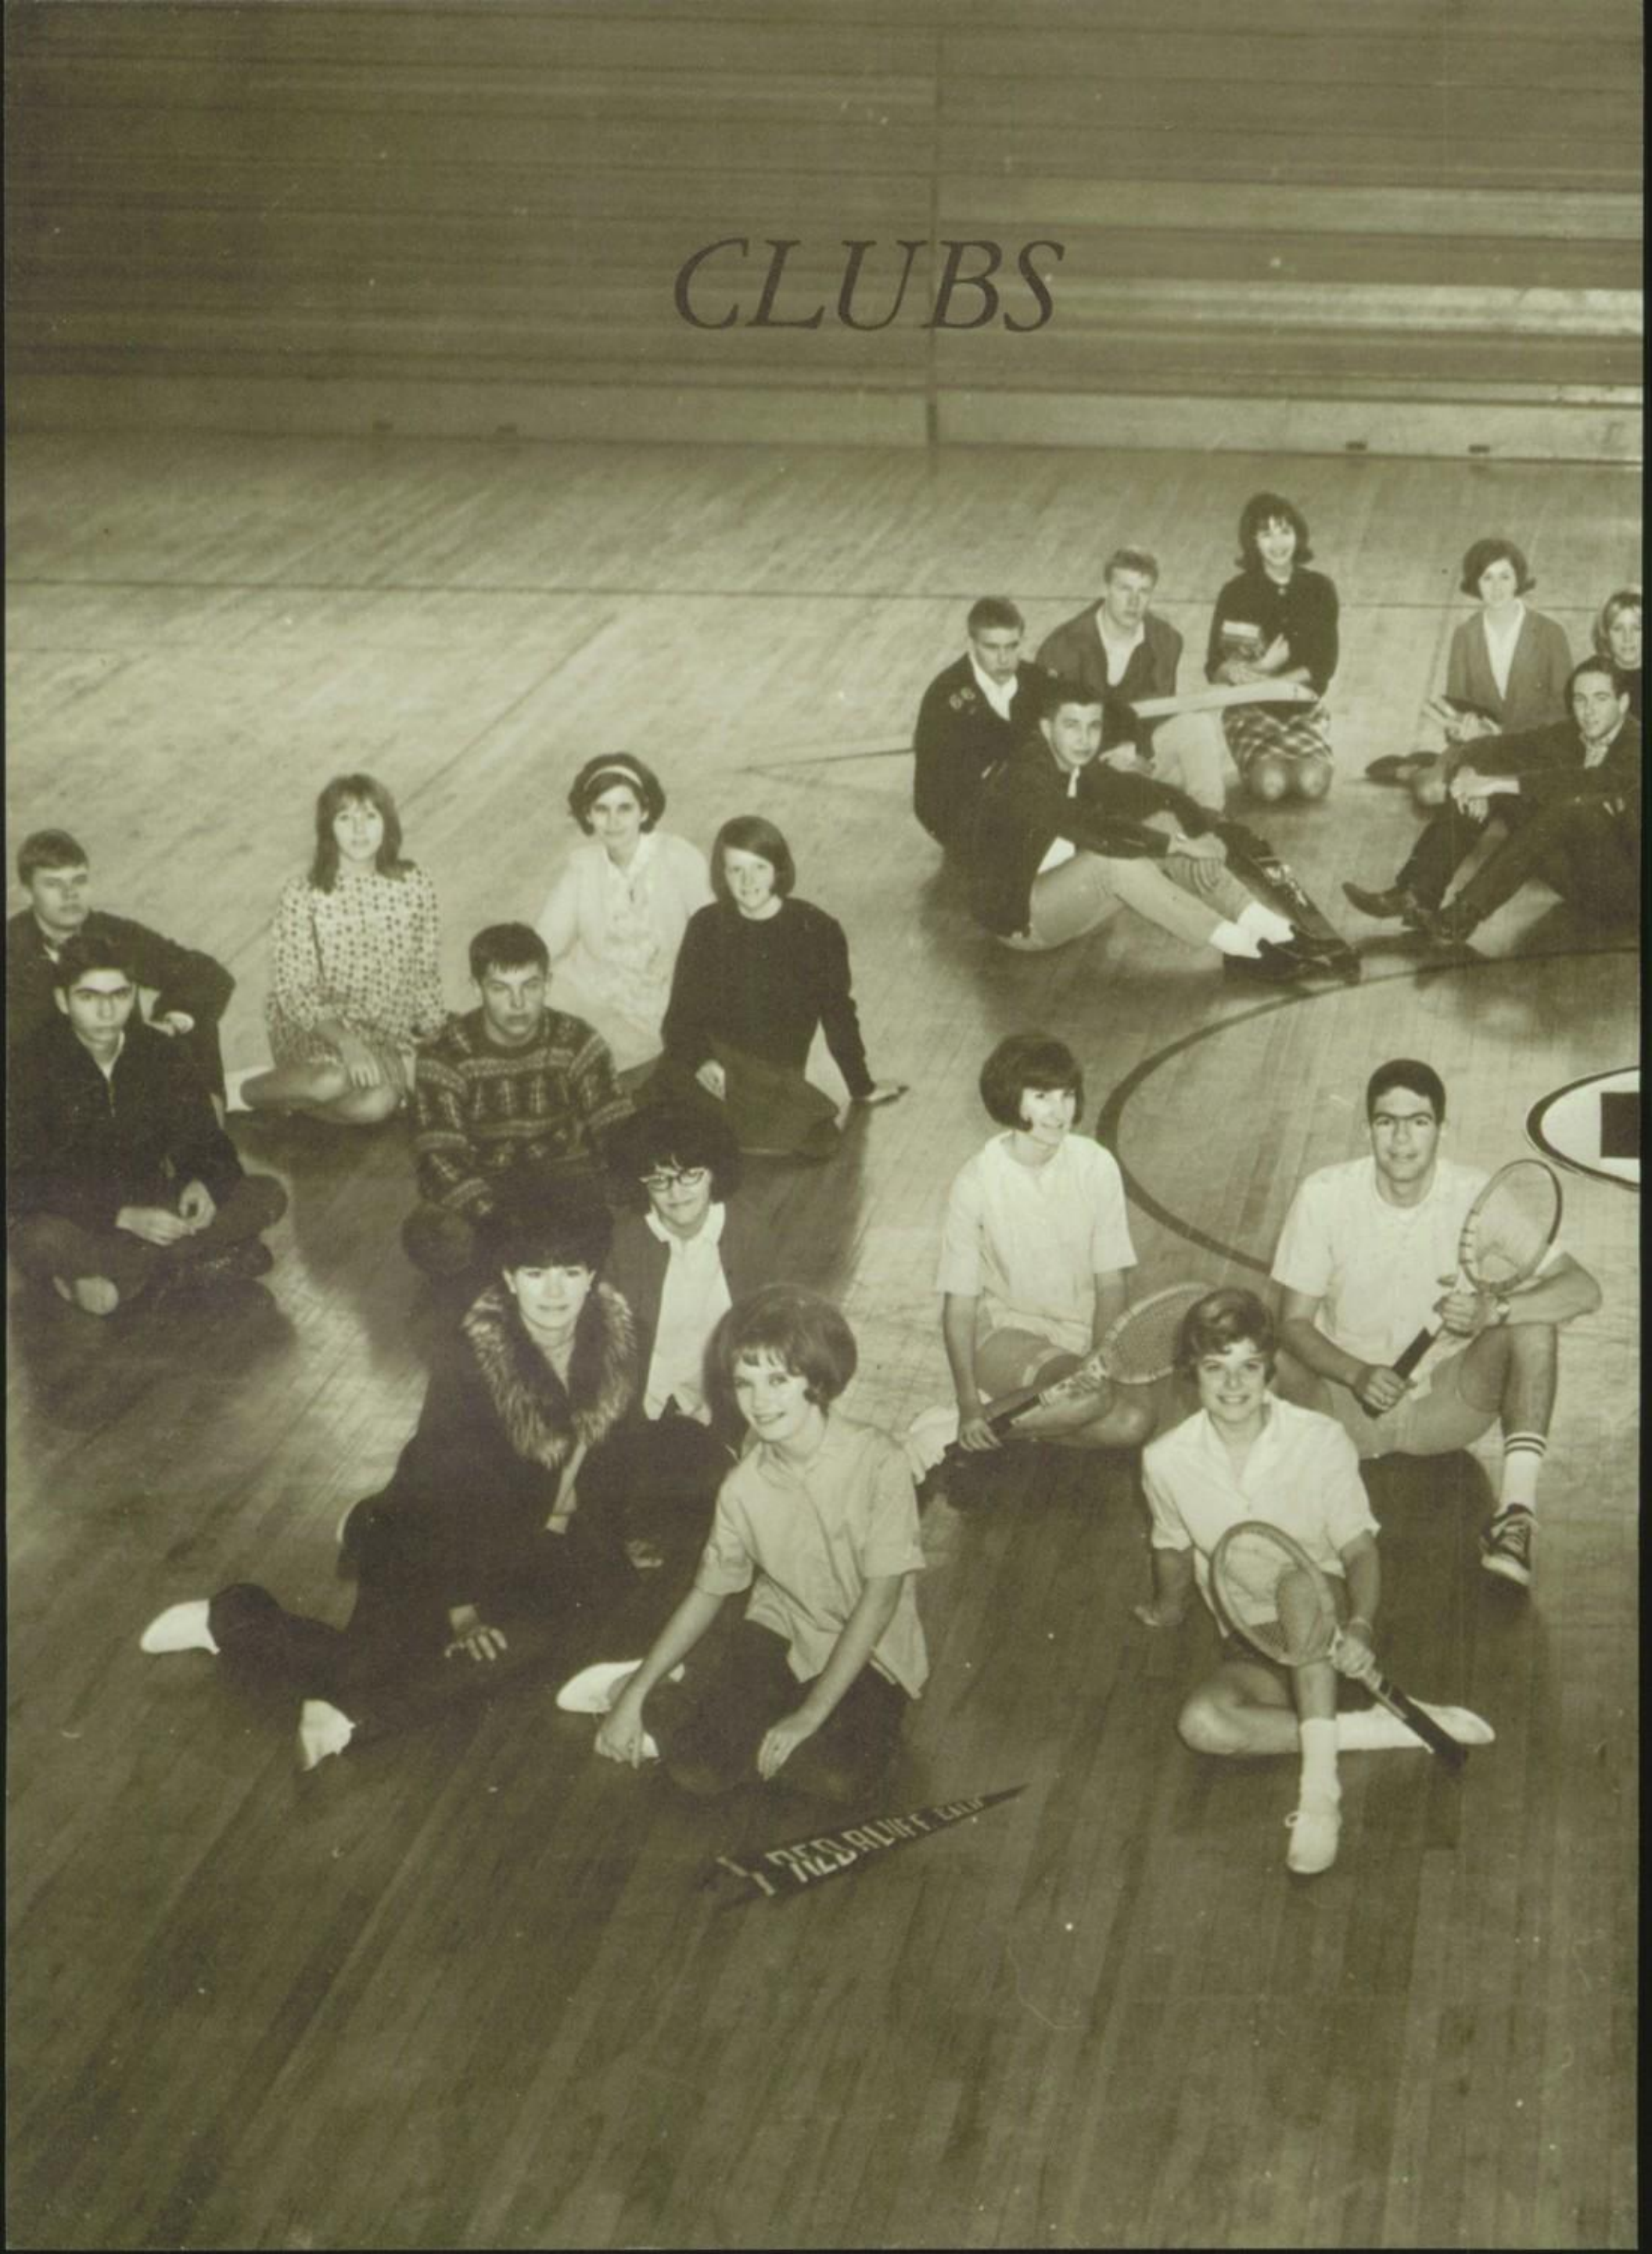
CLUBS



Clubs are an integral part of each GOLDEN HORIZON that dawns on our campus. These organizations bring variety to school life and provide an opportunity for students with similar interests and goals to become acquainted with each other. The meetings and club projects offer recreation and work with a purpose. This purpose is twofold, teaching both participation and co-operation. If a student learns these basic steps toward success during his school years, he is inclined to be an active and concerned citizen, promoting the general welfare of both his own community and his nation.

For these reasons, a time is designated each week for club meetings and activities; thus, GOLDEN HORIZONS continue to dawn.
